Square, of good type, lovely long and strong masculine head with parallel lines, beautiful dark oval eyes, strong neck, would prefer a bit stronger angulation. Lovely developed ribcage, good set on tail. Nice hindquarters, harsh coat, would like to see the dog one day in a proper schnauzertrim. Moving almost parallel, but unfortunately with too weak and short steps. Would prefer a better tailcarriage.

Good type. Nice size. Good length of head. Lacking stop and strength in the muzzle. A little light in ears and roundish eyes. Upperarm ought to be longer and more oblique, in order to get the frontchest. Too short ribcage. Medium harsh coat. Soft on the legs. Moving a bit open front, and the sidemovement should be more efficient.

Feminin, sufficiently boned for her size, nice length of head but lacking stop, lovely dark eye, good neck, excellent front, would prefer a longer shoulderblade as well as the upperarm, round and too short ribcage. A bit low tailset. Moves a bit stiff front, and her sidemovement should be a bit more efficient, and the topline is a bit reverse.

Feminin of good type, sufficient bone, long enough head. Slightly rounded skull and long stop. Beautiful eyes. Nice pigment. Medium neck, because of her upright shoulder. Would prefer slightly longer upperarm, well shaped ribcage. The croup should be slightly longer to make hindquarters stronger, too low tailset. Excellent quality of coat on the body. Wolly on legs. A free mover and nice character.
